FOREWORD

Hello and welcome, this is our yearly Guide's fifth edition!

This Guide was born 5 years ago, as a help for our students. Since then, it has been revised and improved many times. New helpful information has been added, the graphic layout revised to be clearer and easily accessible.

Over time, the Guide has proven to be useful not only for Feng Shui & Ba Zi students and enthusiasts, but also for beginners, who can easily avoid technical explanation and just follow the advice, or use the lunisolar calendar with basic, simple rules.

There are many calendars and agendas like this. However, this Guide has some specific aspects and traits that you will not find in any other calendar:

- Unlike many other calendars, it is not meant only for professionals: you can successfully use this Guide even if you are a complete beginner!
- It has an in-depth section entirely devoted to 2024 Feng Shui.
- Most distinctive: a visual and immediate use of the lunisolar calendar, which makes Date Selection much easier. This is not just a Feng Shui and Ba Zi almanac, **it is a smart tool specifically designed to select the best dates for your most important activities and deeds.** It will make your work faster, easier, and more effective!
- You don't need to be a pro to use this Guide: just read thoroughly the 'Instructions' and, after a bit of practice, you will be able to select good dates and avoid bad dates!
- If you are a pro, you will find a lot of information, shortcuts, and tricks for faster Date Selection!

The 2024 Feng Shui Guide is designed to fit the Feng Shui & Ba Zi system we use in our school, [Kan Yu Feng Shui Academy](#). So, there could be some minor differences with other systems. The expert user, or the advanced student, will need to be aware of this.

This guide is in a PDF portable format, easy to look at using any device: desktop, laptop, tablet, smartphone. It does not consume energy or trees and you can't forget it somewhere! (You can print the Guide, anyway)

The lunisolar calendar comes again in a weekly format, easier to read on smartphones and small devices. You can also use the Guide for your annotations and for keeping track of your work!

Our wish is getting this Feng Shui Guide better and better, as time goes on. For this reason, if you have ideas, advice or any critical comment to improve this Guide, please write us to info@kanyufengshuiacademy.com. Your comment is always welcome!

Following the great success of the 2023 Feng Shui Guide, we are very happy to present you this fifth edition improvements (2024):

- The graphic layout has been revised and upgraded.
- All the technical information regarding the use of this Guide has been collected and expanded in the 'Instructions' section, immediately after the Table of Contents.
- The content was rearranged in a more useful and structured way.
- We added information on Fate 9, which starts in 2024 and ends in 2043, and marks a very important change in Feng Shui energies (Section I).
- BONUS Video – 2024 Feng Shui Advice!
- Many new tables and information added in Section II, for personalized use!
- Many new stars and astrologic structures added in the lunisolar calendar (Section III).
- Gua number for months and days added.
- More detailed and accurate stars and astrological aspects in the lunisolar calendar (Section III): each day of the year has been thoroughly analysed and, when conflicting structures or stars show up, the strongest or most prevalent structure was indicated – easier for beginners!
- Avoid bad Karma! Some days and moments in time are really bad. The ancient Sages were able to tackle those days, and now you can find them in the Guide
- BONUS 4 Date Selection free Video Tutorials!
- We have standardised all symbols and images in the lunisolar calendar, thus making the visual use of the guide even more immediate!
- The Guide is expanded from 124 pages to 164 pages.

A special thank goes to Paola Mannis, who did a great revision work and took care of the composition of this Guide with the utmost dedication.

We really hope this Guide will help you with your living and working spaces. It will help you improving your home layout and gaining benefit from Heaven's Qi. Picking the right time for your important activities and choices is the best way to take advantage of energy waves in time!

We strongly suggest that you carefully read the 'Instructions' section before using the Guide, especially if you are a beginner.

GETTING STARTED

Instructions

We strongly suggest that you carefully read this section before using the Guide, especially if you are a beginner.

This Guide is meant for the use from beginners and medium-advanced practitioners. Skilled practitioners will be able to use this Guide in many profitable ways, combining their knowledge and experience. This is particularly true for Date Selection: in the calendar section you can look at all dates (and their positive or negative qualities) in a glance.

Feng Shui beginners and enthusiasts will have a great benefit. Just skip technical issues and follow the advice! For Date Selection, follow the general instruction you will find in the next pages.

This Guide will help you mainly in two areas: Feng Shui and Date Selection. **Feng Shui** will help you optimizing your home and workplace to get the best energies of this year – and avoid the worst. **Date Selection** can be used for starting important activities, projects, and events in life (like marriage, changing house, etc.). It is also used to find the correct time for taking a critical decision, and for many other things, like starting a diet, closing an issue, decluttering your house, and so on.

At a basic level, the most important role of this Guide is to avoid mistakes in your house, and avoid bad dates for your important activities, that is **avoid doing the wrong thing in the wrong moment**. Anyway, we recommend you ask professional Feng Shui advice if you are not sure or not skilled enough.

Any question? You can join our [Kan Yu Feng Shui Community](#), where you will get an answer! It's free and you can meet a lot of Feng Shui enthusiasts!

Section I (Feng Shui)

In the Feng Shui section, you will find the general information for year 2024, and detailed advice you can use in your house or workplace, to improve your life and work. This is done by analysing the interactions between the Ba Gua (a 3x3 grid placed on your house plan) and Flying Stars.

You will also find detailed pages regarding the timing for **construction works**. Certain areas or directions should not be disturbed this year – or, if you have to do so, you have the option to pick the good date and avoid the bad. To get full benefit, use the construction works pages together with the calendar section.

If you are a beginner, just skip technical issues and follow the advice. Just to start, have a look at the **[2024 Feng Shui Advice Video Guide!](#)**

Section II (Reference Tables)

Section II includes many tables and reference diagrams, useful for the student with more advanced knowledge and for the practitioner. In this way, all fundamental information is brought together in one section and included in the Guide. Consultation becomes easier, without the need to refer to other texts.

A few in-depth tables are also included, for example those relating to hexagrams. Finally, this section includes tables that allow further **customisation of dates**.

If you are a beginner, for the time being we advise you to skip most of this section. You will, however, find some useful charts, such as the 12 Day Officials, astrological aspects and customised stars, and other content.

Section III (Lunisolar Calendar)

The calendar section displays a wide range of information on every day's energy layout, in a graphic and visual frame that makes it easy and fast to use, especially for western people. You will find most important information related to the Sun cycle, the Moon cycle, Jupiter (Tai Sui position), symbolic stars, San Sha and much more.

You can make an easy and fast use, even if you are not that experienced. However, if you know how to use Ba Zi (Chinese Astrology), personal stars, and how to assess a Four Pillars chart, you can take great advantage mixing favourable and unfavourable energies for the person and the information from the calendar. You will be able to find far more accurate dates. Getting better is up to you!

After using this Guide for a time, you will also notice some recurrences and some important issues that could come up. Use this new information to become more experienced and find better dates!

This is not just a Feng Shui and Ba Zi almanac like many others, it is a smart tool specifically designed to select the best dates for your most important activities and deeds.

You can plan your most important activities from the beginning of the year!

IMPORTANT NOTES:

1 – In the lunisolar calendar all times are given GMT+0 (Greenwich Mean Time). If you don't live in the GMT+0 time zone, you will need to adjust. This is easily done using [Ba Zi Calculator](#).

2 – If you want the most accurate time, you will need to use the longitude of the place and apply other corrections (Equation of Time, ...). You can do all calculations automatically on [Ba Zi Calculator](#).

3 – DST (Daylight Saving Time) is not indicated in the calendar. To find the civil time (i.e., the time you usually look at on your watch) you will need to adjust; that usually consists in adding 1 hour in summertime. Anyway, not all countries add exactly 1 hour in summer, and not all countries adopt DST ([here](#) you can check the time zones). Moreover, not all countries start and close DST on the same day. You can find more information on the internet. All calculations are made automatically on [Ba Zi Calculator](#).

4 – For detailed calculation and double-checking, we recommend using [Ba Zi Calculator](#).

We usually talk about 2024 as the yang Wood Dragon year. However, you must not forget that 2024 in western calendar is going from 2024, January 1st to 2024, December 31st. But nowadays, the western calendar has lost most of ancient energetic connections to natural cycles.

In Eastern Astrology (aka Ba Zi or “Four Pillars of Destiny”), the yang Wood Dragon year starts on 2024, February 4th, ending on 2025 February 3rd.

Therefore, the month of January 2024 is still part of the yin Water Rabbit year, as are the starting days of February 2024. There are very specific reasons for this, which will not be treated here. Practitioners who use Ba Zi systems based on lunar calendar will need to adjust. This can be easily done using the ‘lunar calendar’ column.

A similar issue comes for the month. We usually think a month starts on the 1st and ends on the 28th, 29th, 30th or 31st. In eastern solar calendar, there still are 12 solar months, but they start and end between the 3rd and the 6th day of the (western) month. Again, there are very specific reasons for this, which will not be treated here.

For instance, ‘August’ is not exactly the Monkey month, which roughly goes from August 6th to September 6th. You will find specific instructions inside.

Follow the instructions below to understand and use the calendar.

You will find a detailed introduction about eastern energetics and Chinese Astrology (Ba Zi) on [page 75](#). Carefully read these pages, especially if you are a beginner.

How to choose a date

First, you have to check accurately:

- the type of activity / decision / action you are going to make;
- the duration of this activity, or the duration of the direct effects of your action / decision;
- for Feng Shui Date Selection, please refer to the Feng Shui section too.

Then, you have to select a date mixing different techniques, depending on your level:

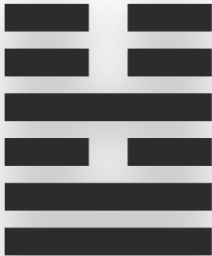

- You can easily learn how to visually read the calendar on [page 105](#).
- Always use the 12 Day Officials' method (detailed information on [page 95](#)): the Day Official must be suitable to your activity/action. The Day Official is shown in the calendar.
- Always use the astrological aspects related to the day (detailed information on [page 100](#)): avoid bad stars/aspects and look for good stars/aspects. Most of activities (but not all) benefit from favourable stars and aspects. Try to have good or suitable stars in the day pillar and hour pillar (at least avoid unfavourable stars). Try to choose a good hour, not clashing with the day pillar.
- When you are more experienced, you can add the personal stars in the picture (detailed information on [page 88](#)). Use the star(s) related to the matter or the type of activity you are going to start.
- If you are a professional, you can add your knowledge to the picture: favourable and unfavourable energies, hexagram date selection, and so on.
- Every 12 days, there is one day branch that is clashing with your Day Master pillar. This is your **personal clash day** (this information is customized to your birth chart; you will need to plot your chart first using [Ba Zi Calculator](#), and then look at the zodiacal animal right under the Day Master). When this animal appears in the 3rd column from the right, that day is clashing you, your family and your house. This is usually considered unfavourable, especially for family, house and even money matters. **We usually want to avoid such a day**. Still, it can be used for a separation, for splitting, for demolishing work; if you want a drastic output from your actions. If you already know the clash is favourable in your chart, you can skip this information. But still, be careful!
- For Feng Shui Date Selection, please refer to Section I too.
- You can find Feng Shui yearly Flying Stars information and advice on [page 17](#).
- You can find more information about **bed positioning** on [page 19](#).
- You can find more information about **desk positioning** on [page 20](#).
- You can find more information on favourable and unfavourable **monthly Flying Stars** on [page 38](#).

- You can find more information about **construction work** on [page 42](#) . First choose the right month based on good Feng Shui Flying Stars in those pages; then choose the right day in the month using the calendar. Remember: in construction works it is not important to select the best day, but it is very important to avoid bad dates by any means!

FENG SHUI 2024

GENERAL ASSESSMENT

2024 is the yang Wood Dragon year.

In the Chinese solar calendar, the yang Wood Dragon year starts on 2024 February 4th, 8:26 am; ending on 2025 February 3rd, 14:15 pm (GMT+0 – Greenwich Mean Time).

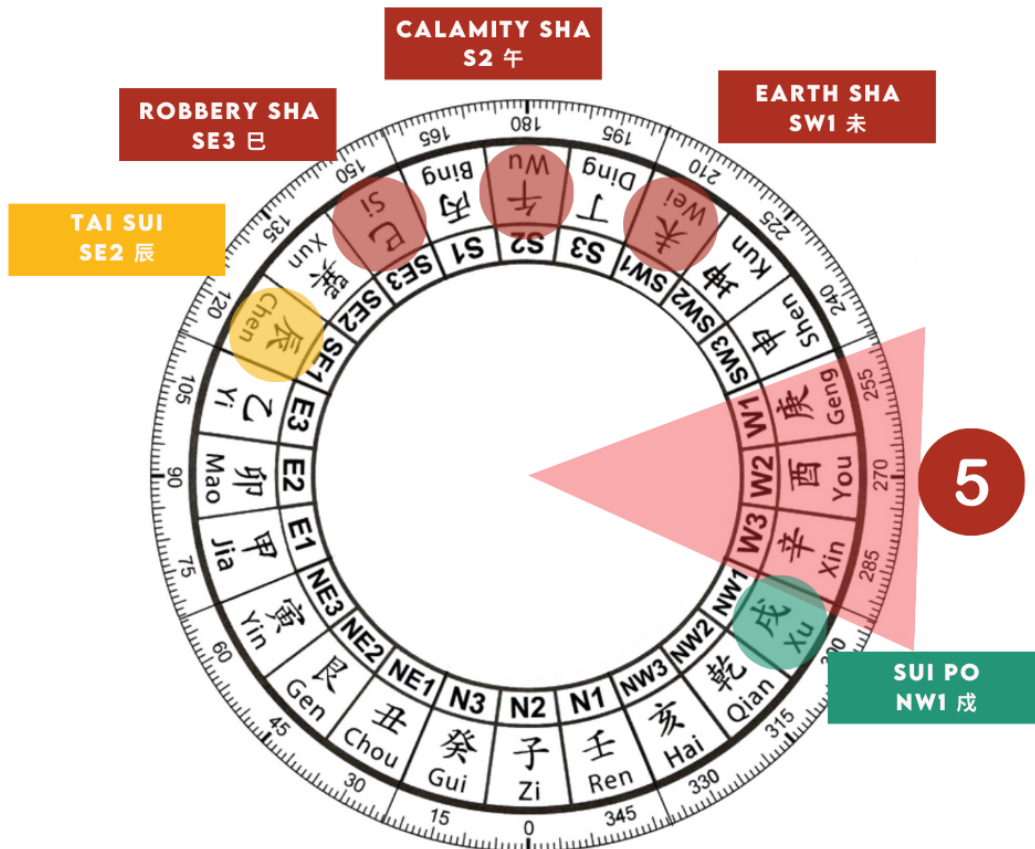

Note that from 2024, January 1st to 2024, February 4th 8:26 am we are still in the previous yin Water Rabbit year. You can use [Ba Zi Calculator](#) to adjust the hour to your local time.

The Dragon is the third of the 12 Animals of the Chinese zodiac. They are also called “the 12 Earthly Branches”. The Dragon is a Wood animal; it contains three active spirits of Wood, Water and Earth.

In the Wooden Dragon, the spirit of Wood is strong. In the Wooden Dragon we can't find Fire and Metal, which will appear in the months.

The hexagram associated with the yang Wood Dragon is no. 38 “Diversity” (Fire over Lake). The keywords are opposition, incompatibility, and taking different paths.

NORTH

From a Feng Shui perspective, **2024 is an important turning point.** In fact, from 2024 February 4th we enter a new 20-year 'period', known as Fate 9 or Yun 9. In this period, the Fire star 9 is the "Bright Star", and everything must be done in accordance with this star to get good luck.

Fate 9 has a duration of 20 years, from 2024 February 4th to 2044 February 3rd. Fate 9 is part of a larger 180-year cycle that began in 1864. This cycle will also end on 2044 February 3rd, after which Fate 1 Water will begin again (2044-2063).

The best way to attract a star (positive) influence is usually to use the area where the star is located, for the specific purpose related to the star.

Example: if you want to use star 1 for progress in work, you should use the east area for your desk/work, since this year star 1 is located in the east area. But in real life, this is not always possible.

A second option is to use the east area inside the room you are already working in. Again, this is only possible if the room is big enough, and if you have the chance of moving your workplace to the new position.

A third option is using the east direction, for example at the back or in front of your work desk.

A fourth option is to activate the star in a different, symbolic way, using the east direction or the east area. If you are not clear, we recommend professional Feng Shui advice.

Depending on the situation, these four options can be mixed.

BED POSITIONING

We usually don't use yearly or monthly stars for bed positioning, and that's the reason why we won't treat this subject here. A bed is usually meant to stay in place for more years, and it is more difficult to replace than a desk or a table. To move a bed, we need to use other stars, with a longer effect. So, we don't usually move the bed, based on yearly or monthly stars.

Anyway, maybe you need to move a bed to a new position/room or place a new bed this year. In this case, it is good to do it in a month where the yearly/monthly star is favorable in the room, and you have another good monthly/yearly star at the back of the bed.

If possible, place the bed in a room that has a favorable yearly star. Then, look at the monthly stars table to choose a favorable month – look for the stars marked in green (or at least grey). In any case, avoid red stars! Finally, select a good date using the lunisolar calendar (Section III).

If you can't place the bed in a favorable room (yearly star), looking for a favourable month star is even more important. Then, select a good date using the lunisolar calendar (Section III).

It is also very important to avoid bad energy configurations in the day you place the bed and sleep in for the first time. You can use the calendar to pick up the right date. Positioning the bed is a very important issue, as we usually sleep there for about 1/3 of our life. Professional advice is recommended.

Even if we don't move the bed based on yearly/monthly star, the stars will still exert their influence on the bed. **This is why in 2024 you should not place a bed with the back to west, north west or south – unless you are very careful with Date Selection.**

If your bed is already placed with the back at north west or south direction, just don't move it.

WARNING: do NOT place a bed or a desk just based on the flying stars. You also need to respect the Form School principles: correct back/front positioning, and so on. If you are uncertain about how to correctly mix Form and Compass School, we recommend a professional consultation.

DESK POSITIONING

Unlike beds, desks (especially work desks) are usually much easier to move to a new position, and in case revert back to the original one.

When positioning a desk, you want to check:

- the overall Ba Gua Palace(s) occupied by the room (Earth Qi);
- the area occupied by the desk in the room, applying a 3x3 grid to the room itself (Earth Qi);
- your desk's direction (back and facing) and stars (Earth Qi);
- yearly and monthly stars in the Ba Gua Palace (Heaven's Qi);
- the month, day and hour you activate the desk (Date Selection, Heaven's Qi).

You need to put together in a correct way Heaven Qi and Earth Qi. When you place the desk in a new position, it is better to start using it too (if you are a professional, of course the date of placement and the date you sit in the position for the first time can be different – but that is more complicated).

So, moving the desk is not enough. You should start a new important project, make important phone calls, send important e-mails and other stuff like this - depending on your type of work.

In 2024 you shouldn't place an important desk with the back to south, west or north west – unless you are very careful with Date Selection. Placing a desk with the back to the north or east is also risky. If you want to put a new important desk in one of these directions, it is better doing it before 2024, February 3rd. If your desk is already positioned in one of those directions, and you can't change or you don't want to change it, just leave it as it is.

Desk positioning is getting more and more importance, also due to the great diffusion of smart working everywhere in the world. Now, let's have a look at how the **yearly stars** and favorable directions will affect your job outcome in 2024.

Star 1 Water (east direction)

Star 1 Water is usually considered very favorable. It is called the 'star of greater fortune'. It brings expansion, growth, and development at work. It favors studies and academic success. It helps to develop a network of social connections.

If you have star 1 at the back of the desk (i.e., your desk is facing west), you will find interior resources to develop your work and project into the future. You can have great success in studies. Your presence in the workplace will become more important. However, this year you should expect sudden and (mostly) unwanted changes.

If you have star 1 in front of the desk (i.e., your desk is facing east), there will be new projects starting and a transformation (or upgrade) in the way you work daily. New contacts and new occasions. You can get extra profits and development. However, this year you could change your job, or witness major changes in internal organization.

If you can see the door to your office/study from your desk, and this is to the east, there will be new clients, new people calling you, and new work opportunities. You can develop your work network.

Star 2 yin Earth (south east direction)

Star 2 yin Earth brings fertility and new projects, it relates to earnings and rewards. It favors agricultural activities, nursery, kindergarten, everything has to do with babies and small things that need to grow up.

If you have star 2 at the back of the desk (i.e., your desk is facing north west), you will be able to start new projects and make them grow. Your boss will give you new tasks to accomplish. You will grow your expertise. Be careful about arising problems and tackle them immediately. You will face an important challenge this year. There is a chance that you will find a new partner in your working environment.

If you have star 2 in front of the desk (i.e., your desk is facing south east), this is a good time for training and acquiring new skills and abilities. You can get earnings and rewards. A major change in work routine/organization is to be expected. Some of your co-workers may fall in love with you but be very careful – this could cause trouble.

If you can see the door to your office/study from your desk, and this is to the south east, there will be new clients and new work opportunities.

Star 4 yin Wood (north west direction)

Star 4 yin Wood is called the 'star of lesser fortune' or also 'the scholar's star'. It favours creativity and success in studies, in an academic career or in education. It is also the 'star of love' because it can be used to find a new partner.

If you have star 4 at the back of the desk (i.e., your desk is facing south east), this is a good time for training and acquiring new skills and abilities. You can get earnings and rewards. A major change in work routine/organization is to be expected. Some of your co-workers may fall in love with you but be very careful – this could cause troubles.

If you have star 4 in front of the desk (i.e., your desk is facing north west), you will be able to start new projects and make them grow. Your boss will give you new tasks to accomplish. You will grow your expertise. You will face an important challenge this year. There is a chance that you will find a new partner in your working environment.

If you can see the door to your office/study from your desk, and this is to the north west, you will meet someone who will make your heart beat faster (not necessarily a co-worker). You can get involved in training projects.

Star 6 yang Metal (north east direction)

Star 6 yang Metal is called the 'command star'. It is usually considered very favourable. At work, it favours career advancement, authority, reputation. It brings recognition and promotion. It is favourable for medical and health matters and studies.

This year, desks positioned facing north east or south west probably are the best ones.

If you have star 6 at the back of the desk (i.e., your desk is facing south west), you will find people helping, guiding and protecting you in your study or work. You can also have a career jump. Some changings are to be expected in your work environment. There is a lot of activity. This position helps a lot mathematical and technical imagination and research. It also helps to achieve goals faster and clearer.

If you have star 6 in front of the desk (i.e., your desk is facing north east), your presence in the workplace will become more important. You can get help from your co-workers. You can get acknowledgement or a prize for your work. There is some evolution in the way you work. This position helps a lot mathematical and technical imagination and research. This position increases the ability to make ideas become real.

If you can see the door to your office/study from your desk, and this is to the north east, you could meet important or powerful people; they could help you or work with you. They could also offer you a new job.

Star 8 yang Earth (north direction)

Star 8 yang Earth is an assistant star. It brings help and advice, success and prosperity, opportunities at work, assistants. It favours side earnings and brings projects to maturity. Particularly favourable for everything to do with architecture, planning, construction.

If you have star 8 at the back of the desk (i.e., your desk is facing south), some people you already know will help you, there will be a lot of activity. Be careful about arising problems and tackle them immediately. You can face a challenge at work. Not all what comes is good. There is a lot of competition.

If you have star 8 in front of the desk (i.e., your desk is facing north), help is on the way to you, but you have to put an effort too. This position increases the ability to make ideas become real. Anyway, this position is not very good, since you have the San Sha at your back – it can bring many problems at work. Don't be too trusting of your

colleagues. Beware of backstabbing and gossip. You should consider moving the desk from this position before February 3rd, 2024; or you don't move the desk at all till February 2025.

If you can see the door to your office/study from your desk, and this is to the north, you will get help from outside, you can have great reward by secondary or minor work projects and activities.

Star 9 Fire (south west direction)

Star 9 Fire is an assistant star. In general, it brings activity, development, prosperity, new ideas, novelty and favourable changes; it favours the start of new projects.

This year, desks positioned facing north east or south west probably are the best ones.

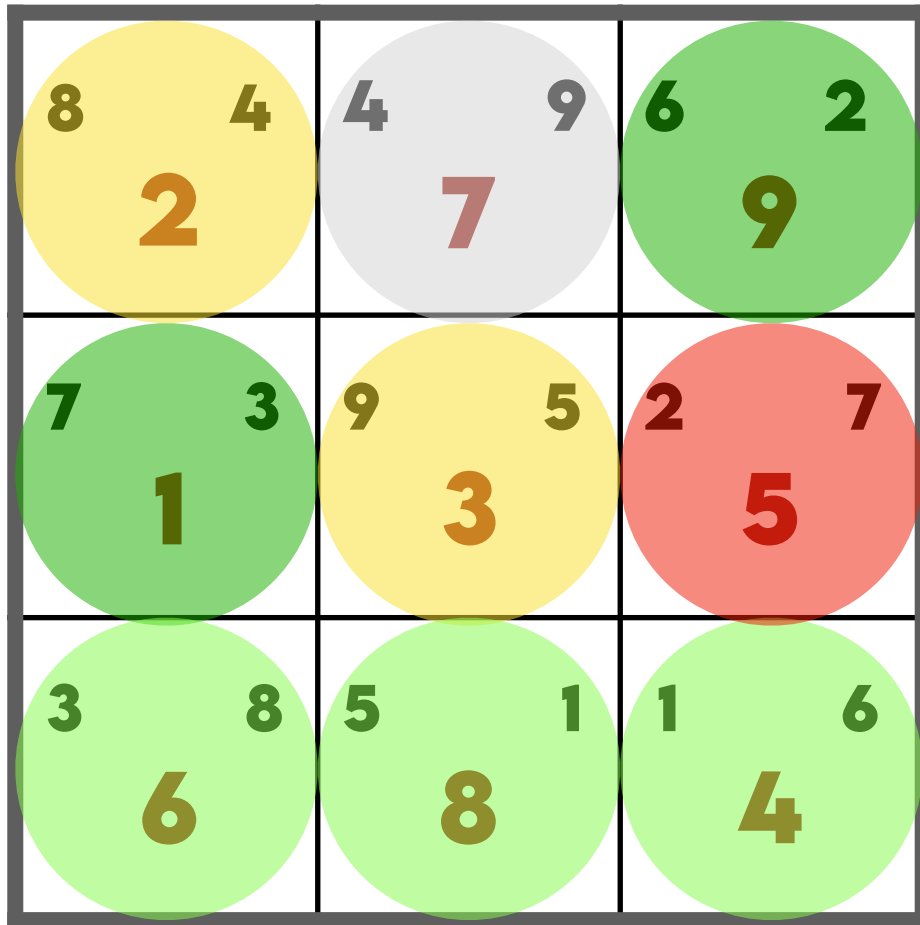

If you have star 9 at the back of the desk (i.e., your desk is facing north east), your presence in the workplace will become more important. You can get help from your co-workers. You can get acknowledgement or a prize for your work. There is some evolution in the way you work. This position helps a lot mathematical and technical imagination and research. This position increases the ability to make ideas become real.

If you have star 9 in front of the desk (i.e., your desk is facing south west), you will find people helping, guiding and protecting you in your study or work. You can also have a career jump. Some changings are to be expected in your work environment. There is a lot of activity. This position helps a lot mathematical and technical imagination and research. It also helps to achieve goals faster and clearer.

If you can see the door to your office/study from your desk, and this is to the south west, there will be news and anticipations during the year. Good for marketing your firm and promoting it, asserting your position in the market.

WARNING: do NOT place a bed or a desk just based on the flying stars. You also need to respect the Form School principles: correct back/front positioning and so on. If you are uncertain about how to correctly mix Form and Compass School, we recommend a professional consultation.

THE 9 PALACES

In this part of the Guide we will explore the effect of Flying Stars on the 9 Palaces. This is different from the position or direction of a bed or desk. It refers to the use of space, of one of the 9 areas of the Ba Gua, regardless of the locations used.

To apply it to your home, you must first draw the 3x3 Ba Gua grid on the floor plan. Enclose your home's floor plan in the smallest square (or rectangle) that contains it all. Then divide the sides of this rectangle into three equal parts and join these points together: you get a 3x3 grid, which divides the floor plan into 9 areas. In Feng Shui, these 9 areas are called '9 Palaces'.

Finally, using a compass, determine which of these areas is north of the centre of the house. Identify all other areas by associating them with a direction. For example, you can proceed clockwise from the north area with north east, east, south east, south, south west, west and north west.

Do not associate the north area with the position of the entrance door (as suggested on some websites or Feng Shui books), because this is completely wrong.

Favourable areas are indicated with shades of green, neutral areas in grey, unfavourable areas in yellow and very unfavourable areas in red.

The best situation occurs when the favourable areas are occupied by the main living functions (entrance hall, living room, kitchen, bedrooms, study).

If the favourable areas are missing or cut off, or are occupied by bathrooms, storerooms, unused rooms, or stairs, you will not benefit from the effect of the favourable stars.

Conversely, if a main living function falls in an unfavourable area, there may be problems. On the following pages some solutions or cures are indicated.

If unfavourable areas are missing or cut off, or are occupied by bathrooms, storerooms, unused rooms or stairs, the negative effect is nullified.

NORTH PALACE

Yearly star 8 yang Earth is visiting the North Palace. This is a good star, bearing help, assistants, happiness, small earnings. However, star 8 conflicts with the boss, star 1. This is a Water-Earth clash, so in this room there is some contrast between flowing and stability. If you use this room a lot, take care of your kidneys, hearing, fluid circulation problems.

Do not place a desk or a bed facing north, especially in this room.

Because of this configuration, the north direction is very good for activating the Wealth Position. It can be done in the living room, in a study room or a working room. You will need to look for the north direction from the room centre.

Remember that the Wealth Position must be set in the appropriate corner, otherwise it won't work. This can be done in any of the 8 Palaces, not only in the North Palace.

If your house is facing north, the situation is worse. You have the San Sha at your back, mixed with the robbery star. Luckily, this star is not so active. Communication is difficult inside the family: take your time to appraise every family member's point of view. There are earnings to come; you must be very careful that they are not taken away. You may suffer losses. You could use a protection or a guardian as a filter, to be placed facing south, in the back of the house.

If your house is facing south, there will be evolution inside the family, with some conflicts. However, the progress is not steady. It can come with jumps back and forth, and blockages. Be careful about competition inside the family. Family wealth is likely to increase; however, beware of outsiders who might try to steal it. Anyway, you can find help inside your family.

If the main door is here, expect help, aiding people, and little earnings in your everyday life. You can make money with the help of other people.

If your kitchen is here, this is good. Check water and gas pipes.

If your living room is here, there will be happiness and friendship.

If your bedroom is here, this is good. Take care of your health, particularly kidneys, hearing, fluid circulation problems.

If your study/workroom is here, this is good. However, you may experience some contrast between evolution and stability in your work. You will find assistants and help. There are earnings to come, particularly if you work in the architecture, design, interior design, construction fields. Do not place a desk or a bed facing north or south, especially in this room. If you already work in that position, it is advisable to change position before 2024, February 3rd.

NORTH EAST PALACE

Yearly star 6 yang Metal is visiting the North East Palace. This is a good star, bearing authoritativeness, authority, career, power, command, determination, and reputation improvements. It helps military career and literary pursuits, career in corporation or big companies. It favours long life and health. It is also favourable for medical and health matters and studies. This is one of the best areas in 2024. This is a yang room, better for yang (daylight time) activities.

Houses facing north east or south west are the best in 2024.

If your house is facing north east, you will be supported by your family and you can have a career advancement. Projects that have been blocked for some time can be unlocked. There is prosperity and development inside the family. The competition between family members is favourable and useful. This is a very favourable orientation, unless the north east and/or the south west areas are blocked or damaged.

If your house is facing south west, family reputation will grow. If you work with your family, a new member will join the family job, everyone will shift to a better work position. Earnings, help, prosperity, and new ideas and projects are waiting for you. The competition between family members is favourable and useful. A family member could become an important and respected person. This is a very favourable orientation, unless the north east and/or the south west areas are blocked or damaged.

If the main door is here, you will meet important and powerful people that will help you unblocking projects and increasing earnings.

If your kitchen is here, this is good.

If your living room is here, this is very good. There is peacefulness and good health.

If your bedroom is here, this is very good. Star 6 can help in recovering from health issues and portends long life and stability in the loving couple.

If your study/workroom is here, this is extremely good. You can have career advancement, increase authority and reputation, become a master in your work field. Success in business, especially in real estate. You can have extra incomes.

EAST PALACE

Yearly star 1 Water is visiting the East Palace. This is a very good star, bearing development, growth, expansion, studies, novelty, fame, success. It boosts academic success, especially in literature and arts. It helps studies and favours social network expansion. This area is also very good for long-term growth, gains, and success in your work. There is also a potential of earnings if this is your working position.

This is probably the best area in 2024.

If you have a specific goal, you can invigorate star 1 using a small fountain in east direction. The water must always be moving. Use the lunisolar calendar to pick a good date to start the fountain. Remember: never put a fountain in bedrooms, long corridors, secondary rooms, stairs.

If your house is facing east, circumstances are going to evolve in a favourable way. However, you should expect big changes inside the family, not always nice. There could be quarrels and arguments. Someone is going to move. Don't let evolution change too much your family structure: you can refuse major changings, even if they seem favourable at first sight. You could use a protection or a guardian as a filter, to be placed facing west, in the back of the house. If the west area is missing, if you have a bathroom, stairs, a closet, or a service room in the west, it is better. If there is a lake, a pond or a swimming pool outside the house in west direction, you are already safe.

If your house is facing west, the situation is a little better. Family wealth is going to increase. A family member will find a new job, or a new job position. However, this could pose problems in the future. You could use a protection or a guardian as a filter, to be placed facing west, in front of the house. If the west area is missing, if you have a bathroom, stairs, a closet, or a service room in the west, it is better. If you can see a lake, a pond or a swimming pool outside in front of the house, you are already safe.

If the main door is here, expect good news, opportunities, new people coming into your life, new connections.

If your kitchen is here, this is very good.

If your living room is here, this is very good. It will be a lively and happy room.

If your bedroom is here, this is extremely good, especially for health. If this is the master bedroom, it is more likely to become pregnant, because star 1 is also the "star of fertility".

If your study/workroom is here, this is extremely good. Success in work, studies. Earnings and growth.

SOUTH EAST PALACE

Yearly star 2 yin Earth is visiting the East Palace. Star 2 has mixed qualities. Star 2 has to do with activating your social network, nurturing, fertility, wealth, health, completion; but diseases and blockages too. There is a potential of earnings, but this will be very exhausting. You could experience stubbornness and difficulties. Harassment and arguments between woman and mother-in-law, if she is living with you. Overall, it portends quarrel and contrast between younger women and older women.

If the room is occupied by a daughter, there may be problems with discipline or education this year. Arguments between women should always be avoided in this area.

In 2024 south east is the Tai Sui area, so you shouldn't make any change or renovation here. If you want to do so, it is much better before 2024 February 3rd , or after 2025 February 4th. Do not start demolition or construction works in the south east area.

If your house is facing south east, do not expect major changes or evolution this year. You can change things, but you have to put in a lot of effort. Family life can be exhausting: take your time to recover. You also have the Sui Po at your back, which is not that favourable.

If your house is facing north west, the situation is a little better. Still, family life is a bit stuck. Beware of quarrel and contrast between younger women and older women, inside the family. This is particularly true if the south east area is mainly used by a woman.

If the main door is here, it is disturbing the Tai Sui. Try and use more another door, if possible. Do not change your habits too much. Don't become stubborn or obsessed about details.

If your kitchen is here, take care of the digestive system.

If your living room is here, that's ok.

If your bedroom is here, take care of abdomen health.

If your study/workroom is here, there is a potential of earnings, but this will be very exhausting. You could experience stubbornness and difficulties.

SOUTH PALACE

Yearly star 7 yin Metal is visiting the South Palace. Star 7 bears disputes, theft, violence, contrast, judgement, viciousness, destruction, fast action. This is not a good star. Luckily, it is controlled by Fire, Lord of the South Palace. There is a potential of fire hazard in this area, so take care and check anything related to fire (oven, cooker, electric appliances, boiler, etc.).

Do not place a desk or a bed facing north, especially in this room.

If your house is facing south, there will be evolution inside the family, with some conflicts. However, the progress is not steady. It can come with jumps back and forth, and blockages. Be careful about competition inside the family. Family wealth is likely to increase; however, beware of outsiders who might try to steal it. Anyway, you can find help inside your family.

If your house is facing north, the situation is worse. You have the San Sha at your back, mixed with the robbery star. Luckily, this star is not so active. Communication is difficult inside the family: take your time to appraise every family member's point of view. There are earnings to come; you must be very careful that they are not taken away. You may suffer losses. You could use a protection or a guardian as a filter, to be placed facing south, in the back of the house.

If the main door is here, check security issues. Not all the people visiting your home bear good intentions.

If your kitchen is here, check anything related to fire (oven, cooker, electric appliances, boiler, etc.).

If your living room is here, do not discuss important matters here. Beware of risky activities and home accidents.

If your bedroom is here, be careful about heart-related problems. Do not discuss important matters here. If a young woman is sleeping here, you need extra care for education. Control more her social life. She could meet the wrong people.

If your study/workroom is here, you may suffer some losses. Do not place a desk or a bed facing north or south, especially in this room. Do not discuss important matters here. If you already work in that position, it is advisable to change position before 2024, February 3rd.

CENTER PALACE

Yearly star 3 yang Wood is visiting the Centre Palace. Star 3 is related to competition, assertion, arguments, ambition, inventions, ranking, determination, persistence, impulse, stubbornness, corruption. In this Palace, it is connected to losses, injuries, sickness, delinquency, getting into trouble because of money (gambling, wrong speculation).

If the centre is wide and open, the effect will be worse. If it is smaller, blocked, cut or unusable, that is better.

If the main door is here (sometimes happens), take extra care. If possible, use another door this year, like a secondary door, a service door or a patio door. Gossip and competitors can be lurking outside or inside the family.

If your kitchen is here, there is a fire hazard potential. Check all appliances. Do not discuss important matters here.

If your living room is here, do not discuss important matters here. Beware of risky activities.

If your bedroom is here, do not discuss important matters.

If your study/workroom is here, do not discuss important matters. There is a potential of growth, however you will have to work hard, because competition is strong.

SOUTH WEST PALACE

Yearly star 9 Fire is visiting the South West Palace. Star 9 is related to activity, help, prosperity, new ideas. In this Palace, Star 9 can lead to immense success and promotion. This is particularly favourable if an adult woman is using this room, especially for work matters.

This is one of the best areas in 2024.

If your house is facing south west, family reputation will grow. If you work with your family, a new member will join the family job, everyone will shift to a better work position. Earnings, help, prosperity, and new ideas and projects are waiting for you. The competition between family members is favourable and useful. A family member could become an important and respected person. This is a very favourable orientation, unless the north east and/or the south west areas are blocked or damaged.

There is prosperity and development inside the family. The competition between family members is favourable and useful. This is a very favourable orientation, unless the north east and/or the south west areas are blocked or damaged.

If the main door is here, this is very good especially for the female leader. Expect good news, promotion, activity, progress in your everyday life, anticipations.

If your kitchen is here, this is very good.

If your living room is here, this is very good. It will be a lively room. Use this room as more as possible, even for work.

If your bedroom is here, this is very good. There will be joy and fervency in the couple. Just take care of womb and gynaecological problems.

If your study/workroom is here, this is extremely favourable, especially if used by an adult woman. New ideas and anticipations in your job are coming. It is particularly favourable for design, planning, development, PR, scientific or technological research jobs.

WEST PALACE

Yearly star 5 Fire/Earth is visiting the West Palace. Star 5 is the most unfavourable one. It is related to sudden and unexpected changes, accident, misfortune, perversion, disaster, but spirituality and personal evolution too. Do not make any minor or major changes in this area. If possible, do not use this area. Do not add red colour. If you have to use this area, use it for a quiet activity. If the area is missing, cut, blocked – this is better in 2024. The same if here there is a bathroom, a toilet, a closet or secondary rooms. If you can see a lake, a pond, or a swimming pool outside in west direction, you are already safe. If you can use this area for meditation or spiritual purposes, that is good. Don't engage in risky activities here.

Like every other star, it is double-sided. It is the star of stability and sudden instability. Do not activate this star. This star is moderated using calmness, silence, quiet activities, symmetry, orderliness, and cleanness.

In 2024, the west area is the worst one. Do not start demolition or construction work in this area.

If your house is facing west, family wealth is going to increase. A family member will find a new job, or a new job position. However, this could pose problems in the future. You could use a protection or a guardian as a filter, to be placed facing west, in front of the house. If the west area is missing, if you have a bathroom, stairs, a closet, or a service room in the west, it is better. If you can see a lake, a pond or a swimming pool outside in front of the house, you are already safe.

If your house is facing east, the situation is worse. Circumstances are going to evolve in a favourable way. However, you should expect big changes inside the family, not always nice. There could be quarrels and arguments. Someone is going to move. Don't let evolution change too much your family structure: you can refuse major changes, even if they seem favourable at first sight. You could use a protection or a guardian as a filter, to be placed facing west, in the back of the house. If the west area is missing, if you have a bathroom, stairs, a closet, or a service room in the west, it is better. If there is a lake, a pond or a swimming pool outside the house in west direction, you are already safe.

If the main door is here, bad news is probably coming. If possible, use another door this year, like a secondary door, a service door or a patio door. If not, you can place a protection symbol facing west; select the right day using the lunisolar calendar (Section III).

If your kitchen is here, be careful about food poisoning. Thoroughly check any appliance related to fire and electricity.

If your living room is here, do not take risks. Beware of home accidents. Do not activate this room. Do not discuss important matters here.

If your bedroom is here, check health issues. Take care of your lifestyle. Do not discuss important matters here.

If your study/workroom is here, you can expect major and unwanted changes in your work. Prepare for the change. Do not discuss important matters here.

NORTH WEST PALACE

Yearly star 4 yin Wood is visiting the North West Palace. Star 4 is the “lesser fortune” star. It helps love, creativity, academic success, studies, arts. In 2024, the north west direction is also the Sui Po. Do not make any minor or major changes in this area. This place must be left quiet and be used for everyday activities. Do not move or replace furniture. Do not start demolition or construction work in this area.

Star 4 is related to two different scopes.

Star 4 is the star of the scholar. It helps students, and anyone whose work has to do with art, literature, publishing, writing, education, teaching, research, and science. If you want to use star 4 for study and work, please refer to the ‘Desk Positioning’ chapter. You could also use a symbolic activation, but you need to know how to do it.

Star 4 is also the star of love. It helps getting a new partner and fall in love. You can also use star 4 for love, especially finding/attracting a new partner. You can use a 4-fold Feng Shui activator. It can be 4 nice small round stones, 4 small orchids or bamboo sprouts, 4 lights or lampshades... depending on the Ba Gua Palace you are working in. The activator must be in harmony with the Palace’s main energy.

You will put your activator in the north west corner of the room you chose, or in the corner associated with your personal Peach Blossom star (refer to Section II). The direction monthly star must be favourable. Star 1 and star 4 are the best ones. You will also need to know when to start the activator. Use the lunisolar calendar to pick a good date. To summon the power of love, use your personal Peach Blossom star in the day/hour. You can calculate your personal Peach Blossom star in the ‘Reference Tables’ section.

Once you placed the activator, you will need to take care of it – at least once a week. Don’t just put it there and forget! Moreover, do go out and look for new friends and new types of people, after the activation. It is also important to make a selection; don’t just go with the first one!

If you find a new partner and you are happy and in love, you will need to remove the Feng Shui activator, or it will bear you new potential partners. Do it in a CLOSE, BALANCE or REMOVE day.

If your house is facing north west, the situation is a little better than the reverse. Nonetheless, it would be better not to undertake any major change in the whole house. Family life is a bit stuck. Beware of quarrel and contrast between younger women and older women, inside the family. This is particularly true if the south east area is mainly used by a woman.

If your house is facing south east, do not expect major changes or evolution this year. You can change things, but you have to put in a lot of effort. Family life can be exhausting: take your time to recover. You also have the Sui Po at your back, which is

not that favourable. It would be better not to undertake any major change in the whole house.

If the main door is here, it is activating the Sui Po, which is not good. Do use this door only for regular house activities. If possible, use another door this year, like a secondary door, a service door or a patio door. If not, you can place a protection symbol facing north west; select the right day using the lunisolar calendar (Section III).

If your kitchen is here, that's ok.

If your living room is here, that's acceptable.

If your bedroom is here, and you are a male, you will probably meet a new partner. If you are already in love with someone, do not activate star 4. If this room is used by a young female, there could be problems with your love partner, or you could meet the wrong partner. Generally speaking, it is a good time to renovate the couple's intimacy – if you don't do that, there is a possibility of extramarital relationships.

If your study/workroom is here, that's ok. Expect moderate growth and success.

FATE 9 FIRE (2024 - 2043)

In Feng Shui, we use a spiral view of time, composed of different types of time cycles, which periodically repeat, ad infinitum. But not only that: in Feng Shui, time and space have a strong correlation.

There is a **great cycle of 180 years**, divided into **3 eras of 60 years** (upper era, middle era, lower era); each era in turn is divided into **3 cycles of 20 years**. A 20-year cycle is called a **Period or Yun**. In a great 180-years cycle, therefore, there are 9 Yuns (Periods), numbered in ascending order from 1 to 9 - like the 9 Palaces of the Ba Gua.

We are currently in a great 180-year cycle that began in 1864 and will end in 2043. This cycle is divided into 3 eras: the era of the yin Earth Rabbit (upper era, 1864-1923), the era of the yang Metal Dragon (middle era, 1924-1983), the era of the yin Metal Snake (lower era, 1984-2043).

Yun 9 (2024-2043) is the last 20-year cycle of the yin Metal Snake era. **That's why 2024 is an important turning point.** In 2044 we will enter another great 180-year cycle (2044-2223), and another 60-year era (the yang Water Horse, 2044-2103). The first 20 years (2044-2063) of this great cycle will be labeled as Yun 1, or Period 1: a 20-year period of rebirth and re-foundation.

Yun 9 is connected to the Fire energy. It will bring great changes and will have the flavour of closure: all that has been started must be brought to completion. After the end of this cycle, we will have a new rebirth with Yun 1.

To relate time cycles to Feng Shui, we use the San Yuan style. The aim of this style is to capture energy changes over time in buildings and homes. To describe the energy change of buildings over time, the San Yuan style uses the division of time into periods (Yun) associated with the 9 stars of the Ba Gua Lo Shu.

Globally, Period 9 will bring major changes: it will be a 20-year period of evolution, of transformation, of revolution, bringing sudden and unforeseen mutations. Science will make great strides, particularly information and technology fields. That is why, in Period 9, it is important to follow the changes carefully and to stay up-to-date.

Young women, and more generally ordinary people, will be the protagonists of this period of evolution. Period 9 also brings a large dose of unpredictability, so it is important to follow the spirit of the times and be fluid: we must accept change and be able to adapt quickly. It is a convulsive period, full of transformations and rapid changes. Many aspects of today's society may change, to be perceived in a new light. One of the key words for Period 9 is: **rapid and unpredictable evolution.**

From a Feng Shui perspective, the incoming new energies bring about an upheaval of certain arrangements in the energetic structure of dwellings.

In conjunction with these changes, it is important to know the characteristics of Period 9 in order to know how to build, design or adapt our homes. **A Feng Shui audit of any home or workplace is recommended** - all the more so if you intend to buy, build, move into a new home or carry out a major renovation.

Our home can either protect us from negative influences or activate them. By properly preparing our home for Period 9, we will be able to welcome favourable influences and reject unfavourable ones. This is especially important in Period 9, given its characteristics of instability, unpredictability, transformation, and rapid evolution.

CONSTRUCTION WORK

	<p>The month is terrible. You need a to use a good date.</p>
	<p>The month is not that favorable. Try the best to select a good date.</p>
	<p>Neutral month, so you won't get that benefit, but neither handicap. It is still important to select a favorable date. At least, avoid bad dates.</p>
	<p>Favorable month. Just avoid worst dates.</p>
	<p>Very favorable month. Just avoid worst dates.</p>

Why selecting a good date is so important for construction works?

Well, construction works can be quite expensive and extenuating, So, we don't want delays, any kind of problem, quarrels, mistakes, problems with authority and so on. We also want the works well-executed and long-lasting. But especially, we don't want wrong time or wrong 'space' works to negatively affect our life. That's why Date Selection is so important for construction works!

When we talk about construction work, the key is avoiding bad dates. It is not that important that you choose the best date – in fact you could use any good, very good or neutral date, or even slightly unfavourable. What is important is avoiding unfavourable and very unfavourable dates.

In 2024, you should put particular care for the east, south east, west and north west areas.

If you are planning any refurbishment, renewal, taking down walls, excavation, construction works, ..., you need to select an appropriate day and time.

Using the 12 Day Officials is important too. For excavation and demolition, a CLASH day is ok! But if you are (mostly) building new, you should use an ESTABLISH, SETTLE, SUCCESS day or, at least, a neutral Official.

At the same time, ESTABLISH, SETTLE and SUCCESS day are very good Officials, but they are not that suitable for excavation or demolition.

When using 12 Day Officials, you must look at what is proper for the activity you are going to start. You can get all the information about 12 Day Officials in Section II on [page 95](#).

If you are planning big works, that involve most area of the building, start in a good palace and then move on. In 2024, don't start work in south east, west, north west areas.

So, if you are planning construction works in the yang Wood Dragon year, it is strategic to check all the 12 months in advance and make a clear schedule – which, by the way, will also help you to better organize your life!

BA GUA LO SHU

When applying to a building/house, the North Palace must be aligned to the geographical north. Usually, you can take this measure with a simple compass. The Ba Gua must NOT be used aligning the North Palace to the main door: this is wrong.

The Ba Gua is a 3x3 grid. It must be drawn fitting your house plan. Each of the 9 boxes is called 'Palace'. Each Palace has a Lord. The Lord is the energy hosted in the Palace (for instance, the North Palace is ruled by Lord Water, the South is Lord Fire's Palace, and so on).

The color in each box DOES NOT MEAN you have to paint the room that way. It is just an easy, visual way to remember the color associated to the Body Energy (i.e. the Lord) ruling the box.

The number in each box is called 'Star' and it mainly represents the Late Heaven Sequence of Trigrams (see further), especially when it moves. So, 1 is the star related to the North Palace, and especially to Water energy residing in the north. Moreover, it is connected to the Trigram 'Water' or 'Well', also residing in the north.

<p>EAST SOUTH</p> <p>Yin Wood Star 4 Trigram: 'Wind'</p>	<p>SOUTH</p> <p>Yin/yang Fire Star 9 Trigram: 'Fire'</p>	<p>SOUTH WEST</p> <p>Yin Earth Star 2 Trigram: 'Mother Earth'</p>
<p>EAST</p> <p>Yang Wood Star 3 Trigram: 'Thunder'</p>	<p>CENTER</p> <p>Yin/yang Earth Star 5 yin Fire no Trigram</p>	<p>WEST</p> <p>Yin Metal Star 7 Trigram: 'Lake' / 'Marshes'</p>

TRIGRAMS: EARLY HEAVEN SEQUENCE

This is the former arrangement of the 8 Trigrams. It is symmetrical.

TRIGRAMS: LATE HEAVEN SEQUENCE

This is the latter arrangement of the 8 Trigrams. It is not symmetrical. It is connected to seasons and to the Ba Gua Lo Shu layout of energies.

THE 10 HEAVENLY STEMS

They represent pure Heaven Qi, based on eastern 5-movement theory. They are divided in two groups: the yang stems and the yin stems. They get a direction (24 Mountains) and an image associated. As a Day Masters, each Stem has specific natural features.

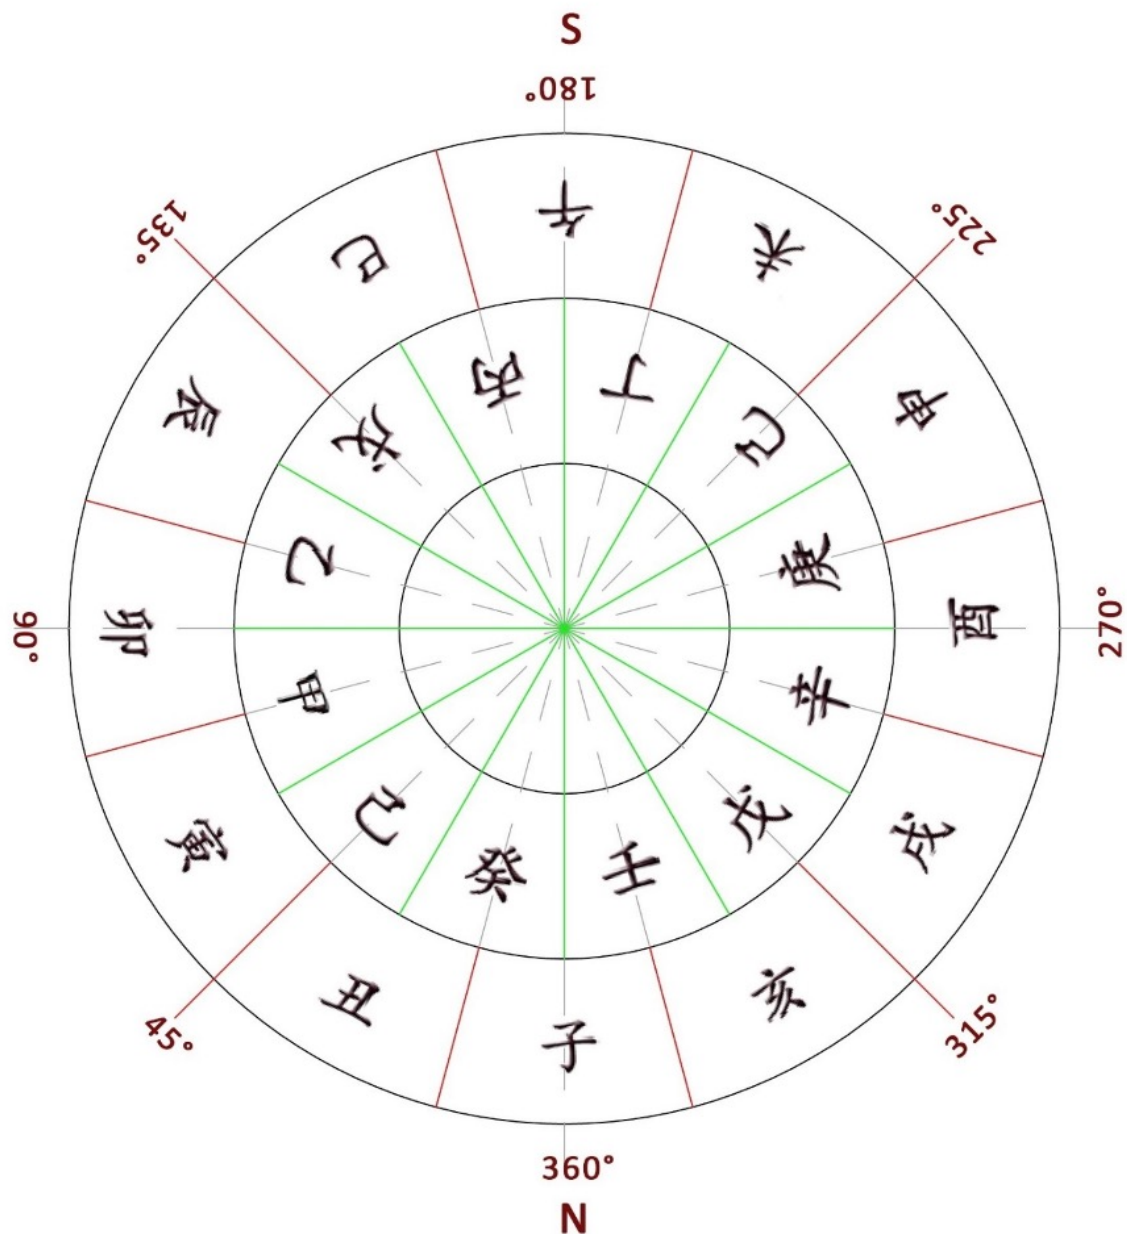

甲	Yang Wood	East 1	Tree	Fast growth, new births, rapid evolution, rigidity
乙	Yin Wood	East 3	Grass, shrubs, leaves	Communication, balanced and gradual growth, adaptable
丙	Yang Fire	South 1	Sun, a big fire	Transformation, light, fame
丁	Yin Fire	South 3	Stars, a small fire or man-made fire	Empathy, warmth, fervency
戊	Yang Earth	Center, SE, NW	Rocks	Stable, reliable, protective, stubborn
己	Yin Earth	Center, NE, SW	Soil, gravel	Fertile, fruitful, joyful, nurturing
庚	Yang Metal	West 1	Natural structures	Faithful, loyal, responsible, strong

癸	Yin Water	North 3	A pond, a stream, clouds, fog, a well	Mystery, concealing, imagination, down-to-earth, very adaptable

THE 12 EARTHLY BRANCHES

CALCULATING THE HOUR PILLAR

This table is called “The 5 Rats Chasing the Hour”. It is used to calculate the hour pillar. You can also look at all 12 hour pillars of the selected day at a glance. To calculate the hour pillar, you need to know the day pillar, particularly the day stem. Then, find the column corresponding to the day stem in the upper rows and cross it with the hour row on the right.

CALCULATING THE YEAR GUA

In Feng Shui, each one of the 9 Stars (or Guas) is connected to a direction, a location (Palace), a trigram, an energy, a colour, and a few specific qualities (check on [page 54](#)). We can associate a star to a person too, based on the birth year. It then takes the name 'Ming Gua', which is a person's Destiny Gua.

The yearly Gua is connected to Heaven Qi. Because Heaven Qi is descending, while Earth Qi is ascending, the yearly Guas are descending from 9 to 1, and then they repeat.

The same descending annual Gua is attributed to men, while a different, ascending Gua is attributed to women, who are more connected to Earth Qi.

However, there is a small difference between the annual Gua and the Ming Gua. When the annual Gua is 5, men are given Ming Gua 2 (yin Earth), while women are given Ming Gua 8 (yang Earth). There is a reason for this, which we will not go into here.

YEAR	YEARLY LO SHU NUMBER (YEARLY GUA)	MING GUA (MEN)	MING GUA (WOMEN)
2015	3	3	3
2016	2	2	4
2017	1	1	8 (5)
2018	9	9	6
2019	8	8	7
2020	7	7	8
2021	6	6	9
2022	5	2 (5)	1
2023	4	4	2
2024	3	3	3
2025	2	2	4

IMPORTANT NOTE: in eastern energetics, the yearly energy shift is set on February 3rd/4th. So, if you are born between January 1st and February 2nd/3rd, you will get the previous year Gua. Be careful!

There is a very simple formula for calculating the Ming Gua.

For males, you add up the four digits of the birth year; keep adding until you get a digit between 1 and 9; then from the FIXED number 11 you subtract this digit; the result is the

yearly Gua. If the result is larger than 9, it must be reduced once more. If the result is 5, the person will get Ming Gua 2.

For females, you add up the four digits of the birth year; keep adding until you get a digit between 1 and 9; then add the FIXED number 4; the result is the yearly (female) Ming Gua. If the result is larger than 9, it must be reduced once more. If the result is 5, the person will get Ming Gua 8.

Let's look at some examples.

Male, born on November 25th, 1972: $1+9+7+2 = 19$; $1+9 = 10$; $1+0 = 1$; **11-1** = 10; $1+0 = 1$. He will get Ming Gua 1 Water.

Male, born on January 18th, 2004. Since he is born between January 1st and February 2nd/3rd, we are still in the previous yin Water Goat year, so we start the calculation with 2003 and not with 2004: $2+0+0+3 = 5$; **11-5** = 6. He will get Ming Gua 6 yang Metal.

Male, born on March 22nd, 1995: $1+9+9+5 = 24$; $2+4 = 6$; **11-6** = 5. Since the year Gua is 5, he will get Ming Gua 2 yin Earth.

Female, born on June 3rd, 1981: $1+9+8+1 = 19$; $1+9 = 10$; $1+0 = 1$; **1+4** = 5. Since the year Gua is 5, she will get Ming Gua 8 yang Earth.

Female, born on September 11th, 1993: $1+9+9+3 = 22$; $2+2 = 4$; **4+4** = 8. She will get Ming Gua 8 yang Earth.

Female, born on February 1st, 1990. Since she is born between January 1st and February 2nd/3rd, we are still in the yin Earth Snake year, so we start the calculation with 1989 and not with 1990: $1+9+8+9 = 27$; $2+7 = 9$; **9+4** = 13; $1+3 = 4$. She will get Ming Gua 4 yin Wood.

CALCULATING THE MONTH GUA

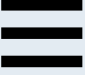

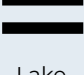

It is possible to associate a Lo Shu (Gua) number not only to the year, but also to the month, day and hour. You can easily find the monthly and daily Gua in the lunisolar calendar (Section III).

Anyway, you can find below simple table for calculating the Lo Shu number of the month (month Gua). The months shown are based on the solar cycle. The dates are approximate and may vary by one or two days. For an accurate calculation, you should use the lunisolar calendar.

To calculate the month Gua, you must first calculate the year Gua, then just look at the table below.

There are 60 Pillars and 64 Hexagrams. Traditionally, 4 Hexagrams were taken out from space and time level of manifestation, because considered too powerful and metaphysical. They are: 1 Initiating (Heaven over Heaven), 2 Responding (Earth over Earth), 29 Darkness (Water on Water), 30 Brightness (Fire on Fire). This seems the most correct approach. In modern times, however, each of these four pillars (marked in the table above) is paired to two Hexagrams. Which way you use, depends on your approach.

THE 5 ELEMENTS

In eastern Chinese energetics we have 5 Elements, also known as 5 Movements or 5 Energies. They are: Wood, Fire, Earth, Metal, Water. There are complex relations between these 5 Energies. However, for the time being, it is enough to know and understand the **Generating Cycle** and the **Controlling Cycle**.

We can see these two cycles as complementary yin/yang aspects of the same Unity. The generating cycle produces infinite growth, without limitation. It is considered yin. Its counterpart (the controlling cycle), on the other hand, limits development while maintaining stability. It is considered yang.

Each energy, after fulfilling its function, naturally and harmoniously transforms into the next energy. This relationship is represented by the generating cycle.

However, in order to maintain itself, each energy is naturally brought to control another energy. This relationship is represented by the controlling cycle.

GENERATING CYCLE				
WOOD	木	GENERATES	FIRE	火
FIRE	火	GENERATES	EARTH	土
EARTH	土	GENERATES	METAL	金
METAL	金	GENERATES	WATER	水
WATER	水	GENERATES	WOOD	木

and the cycle starts again

CONTROLLING CYCLE

FIRE	火	CONTROLS	METAL	金
EARTH	土	CONTROLS	WATER	水
METAL	金	CONTROLS	WOOD	木
WATER	水	CONTROLS	FIRE	火

BA ZI: THE 60 PILLARS AND THE PERSON'S BIRTH CHART

In eastern energetics, we have 10 heavenly stems, representing Heaven's Qi, and 12 earthly branches, representing Earth's Qi. When Heaven meets Earth, stems and branches get paired.

We should expect $10 \times 12 = 120$ possible combinations, but due to the way of combining stems and branches, there are only 60 possible combinations.

This is because a yang stem can only be associated to a yang branch, and similarly for the yin.

These 60 combinations are called the '60 Pillars'. **They represent 60 energy archetypes**, 60 possible natural ways of manifestation in the material world. These 60 Pillars are also used to count time in a spiral pattern. They are associated to years, months, days, and hours: smaller spirals nesting into greater spirals.

Because you are born in a certain year, in a certain month, in certain day, and at a certain hour, you will get 4 Pillars to describe that time. Therefore, in Chinese Astrology (Ba Zi, Four Pillars of Destiny), a person's birth chart is represented by those 4 Pillars. This is your natal chart. **It is also called the 'Ming', or 'Heavenly Decree'.**

Each pillar consists of two parts: an upper one representing the heavenly influence (Shen), and a lower one representing the earthly influence (Po). You can see an example in the picture. You can clearly see the 4 Pillars, reading from right-to-left: the year pillar, the month pillar, the day pillar and the hour pillar. You can also see the (upper) 4 stems over the (lower) 4 branches.

You can easily calculate your personal birth chart using [Ba Zi Calculator](#).

The birth chart can be considered a representation of the person's life and Destiny in this incarnation.

Whilst your birth chart represents your life layout, there is a specific element representing YOU inside your life. This is called '**Day Master**': you can find it in the day stem (third top from the right). **The Day Master represents the person himself within his life.** It is always represented by a heavenly stem.

In Ba Zi, most of the analysis is done based on the Day Master.

The position under the Day Master is important too. It is the 'House and Spouse Palace'. This is your personal zodiacal animal, while the one most known in the West is the year animal, which is very general.

Of course, the Day Master must relate to the other elements (energies) within the birth chart. Even if you are not familiar with the Chinese characters, you can easily see which energy they are associated with by using colour: green for Wood, red for Fire, yellow for Earth, grey for Metal and blue for Water.

You can use this basic information to tailor up on your personal chart the dates you are choosing for important activities, to get maximum benefit.

Now, let's see what the other energies in the birth chart represent for the Day Master. Note that this depends on the energy of the Day Master: the same element (energy) can represent a different function to a different Day Master.

BA ZI: SIX FUNCTIONS (LIU SHEN)

Identification

This is the energy of the Day Master himself, the energy in which the Day Master recognises himself.

Friend / Parallel

This is the same energy as the Day Master.

Friend primarily represents brothers and sisters, cousins, friends and work colleagues, all people of the same age group or social background, rivals and competitors, all situations we recognise as 'friendly', brotherhood and competition.

Output

This is the energy generated by the Day Master.

Output represents interaction with the outside world, outer life, the attempt to change situations to our advantage, understanding and manipulation of the outside world, the person's evolution, visibility, creativity; as adults it represents activity and one's own work, and also earnings from regular work. It also represents children, especially for females.

Target / Wealth

This is the energy controlled by the Day Master.

Although this function is commonly known as 'Wealth', it has many other far more important meanings, which are usually overlooked because people are obsessed with wealth. In our setting, Target represents dreams, needs, and expectations as a child; constraints, responsibilities, commitments, and bonds as an adult; it also represents wealth, property, assets, rewards, inheritances. It is the 'trap' function. It is associated with the father. It is associated with the partner (for males).

Power

It is the energy that controls the Day Master.

Basically, Power represents the energies of the universe that oppose us. It is associated with authority, reputation, career, discipline and self-discipline, judgement and self-judgement. It represents the various forms of authority we have to deal with in our daily lives, such as the government, the police, everyone that has the right to control us; obligations and duties. In certain cases, it can be associated with persecution, imprisonment, problems with authority. It is associated with the partner (for females).

Resource

It is the generating energy of the Day Master.

It is primarily associated with the mother, your parents and your extended family, the values and upbringing passed on to us, our origins and roots, inner life, recognition and acknowledgement, comfort in life, health, intelligence and deep thought, mediumistic or extrasensory gifts.

Each of these functions can be 'favourable' or 'unfavourable' in the birth chart. So, if there is an abundance of Target in your birth chart, this does not necessarily mean that you will become rich. In fact, it could be just the opposite.

Ba Zi is a deep and complex matter: to understand your birth chart and the Destiny that has been reserved for you, a professional reading is necessary.

BA ZI: SIX FUNCTIONS, GENERATING CYCLE AND CONTROLLING CYCLE

Since the six functions are constructed according to the relationships between the five energies, a generating cycle and a controlling cycle can also be shown for them. However, these cycles are now independent of the original energies.

SIX FUNCTIONS – GENERATING CYCLE			
FRIEND	GENERATES	OUTPUT	
OUTPUT	GENERATES	TARGET	
TARGET	GENERATES	POWER	
POWER	GENERATES	RESOURCE	
RESOURCE	GENERATES	FRIEND

BA ZI: THE 10 FAIRIES (TEN GODS)

We can further deepen the study of the six functions by considering the yin/yang polarity with respect to the Day Master. In this way, we obtain what are classically called '10 Fairies' or '10 Gods'. This is a reference chapter for professionals; if you are a beginner, you can safely skip it.

BA ZI: KARMIC ASPECTS

Nowadays, everyone talks about Karma! But the ancient Sages, after much research, were able to identify the conformations within the birth chart that indicate a karmic residue to be fulfilled. Not only that, but they were also able to identify the quality of negative karma, and the most appropriate behaviour to adopt in this life.

When a karmic aspect is found in the birth chart, we speak of a fixed karmic aspect or karmic marking. However, a karmic aspect could also be activated by a transiting luck pillar (decennial, annual, etc.). In this case, the karmic aspect is not fixed and becomes a karmic test. Usually, the karmic test has the duration of the pillar that bears it.

All karmic aspects are related to the earthly branches.

Of course, there is a lot to know about karmic aspects. To properly analyse any karmic marking in your birth chart and karmic tests, a thorough knowledge of Ba Zi is required. Only an experienced practitioner can correctly identify karmic aspects, their strength, their effect on a person's life and their danger.

This is a reference chapter for professionals; if you are a beginner, you can safely skip it. Below, you will find a complete list of known karmic aspects.

Karmic Punishment

There are four types of karmic punishment.

Ungrateful Punishment (Three Fires) has to do with trust, loyalty, betraying or being betrayed, cheating or being cheated.

Bullying Punishment has to do with obsession, being in a painful situation from which one cannot escape.

Ungrateful Punishment and Bullying Punishment are considered to be the worst karmic aspects.

Uncivilized Punishment has to do with the lack of respect and gratitude.

Self Punishment has to do with persisting doing something worthless, stupid, or even dangerous.

UNGRATEFUL PUNISHMENT	寅巳申		
	Tiger, Snake, Monkey		
	寅巳	巳申	寅申
	Tiger, Snake	Snake, Monkey	Tiger, Monkey
BULLYING PUNISHMENT	未戌丑

	Rat, Rabbit		
SELF PUNISHMENT	辰辰	午午	
	Dragon, Dragon	Horse, Horse	
	酉酉	亥亥	
	Rooster, Rooster	Pig, Pig	

Karmic Harms

A karmic harm is compared to receiving a stab wound, and then having a great loss of blood when the knife is pulled out. Karmic harms are very dangerous and can bring great suffering.

子未	寅巳	卯辰
Rat, Goat	Tiger, Snake	Rabbit, Dragon
午丑	申亥	酉戌

Karmic Destructions

A karmic destruction leads to the acquisition of vices and bad habits (destructive behaviour), such as going to bed late, not exercising, eating too much, smoking, drinking too much alcohol, drugs, always having a negative attitude, fantasies replacing reality, etc.

子酉	丑辰	寅亥

DATE SELECTION: PERSONAL STARS

In this chapter, you will find some information that allows you to customise the Date Selection, according to the specific characteristics of your birth chart and your Day Master.

If you are a beginner, I advise you to skip this chapter for the time being and do some practice first. Later, you can also integrate this knowledge into your choice of dates.

In Chinese Astrology, a 'star' is a particular influence attached to a heavenly stem, or an earthly branch.

Warning: do not confuse Ba Zi stars with flying stars. Those are two different things!

A star can be favourable or unfavourable; moreover, there are really many types of stars and each one is calculated and used differently. For example, some stars are only important if they are present in the birth chart, others are valid for both birth chart analysis and the calculation of a date, and others are only important when calculating a date for a specific activity.

In general, if a star is present in the birth chart, it will exert its influence (favourable or unfavourable) for much of the person's life.

On the other hand, when you use a star for the date calculation, the star will 'load' that date with its specific characteristics, making it more effective and more useful for achieving the goal you have set.

In this chapter we focus on a few stars, either calculated based on the Day Master or based on the earthly branch below the Day Master, specifically for use in Date Selection.

You want all these stars to be in the day pillar of the date you choose. If it is to be found in the month pillar or year pillar, that is also good.

Another distinctive and intriguing aspect of stars is that they are always connected to a direction. In fact, a star is always connected to a heavenly stem or an earthly branch. Since those are always connected to a direction, the star is also connected to a direction. The following tables contain all this information.

This means that you can also integrate a personalised direction into the action you perform on the day you chose.

For example, if you want to place a desk in order to be successful at school, for academic success, you can start your studies on the date you have calculated and place the desk in the direction connected to the star. Specifically, you can have the direction of the star behind you or, if this is not possible, in front of you.

For example, if you want to place a Feng Shui activator to find a new partner, in addition to the date you have calculated for the activation, you can place the activator in the direction connected to the customised love star.

If you own a Luo Pan, you can use the **exact direction** connected to the element that bears the star (check [page 60](#)).

Usually, using personal stars to achieve specific results has a stronger and faster effect than a non-customised date.

Of course, from a professional point of view things are a little more complicated. You may find contradictions between personal stars, flying stars, the 12 Day Officials and other methods used. This is perfectly normal. [To get more insight, look at these video guides.](#)

If you are not sure what you are doing, we recommend that you seek professional help.

ASTROLOGICAL ASPECTS SHOWN IN THE CALENDAR

<p>TS</p>	<p>Tai Sui</p> <p>This is not a dangerous day (the 'Grand Duke'). Still, it is better not to use it, especially in Feng Shui (construction, demolition, etc.).</p>
<p>SP</p>	<p>Year Breaker Day</p> <p>The Year Breaker (Sui Po) is clashing with the Tai Sui. Should be certainly avoided for activities lasting three months or more. It is acceptable for short-term activities, but you should still try to avoid this day. You can use this day for very specific activities involving 'breaking something' related to the current year, like digging, demolishing, breaking a relationship, etc.</p>
<p>MB</p>	<p>Month Breaker Day</p> <p>This day is clashing with the month pillar. If possible, always avoid these days. Nonetheless, they are good for demolition, breaking walls, excavation, digging, breaking something with no particular care. That's why, you usually don't use this day for breaking a relationship or something important: it will work but it can leave you in a mess.</p>
<p>K</p>	<p>Karmic Aspect (annual)</p> <p>This day is in a bad relationship with the year pillar, involving bad Karma. Although this is general, it is advisable to avoid these days. It is much worse if it also makes another karmic aspect with some element inside your birth chart. Although this is general, it is advisable to avoid these days.</p> <p>Note that there could be other karmic days related to your personal birth chart, that are not shown in the calendar. Look on page 85 for more information.</p>
<p>K</p>	<p>Karmic Aspect (monthly)</p> <p>This day is in a bad relationship with the month pillar, involving bad Karma. Although this is general, it is advisable to avoid these days. It is much worse if it also makes another karmic aspect with some element inside your birth chart. Although this is general, it is advisable to avoid these days.</p> <p>A monthly karmic day is usually less dangerous than an annual karmic day, with some exceptions.</p> <p>Note that there could be other karmic days related to your personal birth chart, that are not shown in the calendar. Look on page 85 for more information.</p>

<p style="text-align: center; font-size: 2em; color: red; letter-spacing: 0.5em;">R C E</p>	<p>Yearly Three Killings Days (San Sha)</p> <p>They are carried by day earthly branch. You should always avoid these days for long-term activities. You can use these days for short term activities (a few weeks or months), if necessary.</p> <p>Robbery Sha Day:</p> <p>you can lose money, personal objects, opportunities; or being robbed (not necessary on a physical level). They are also not good for traveling, for money deposit or withdrawal.</p> <p>Calamity Sha Day:</p> <p>this is the worst kind of Sha. These days are associated with misfortune, issues, harms. They are not good for medical surgery, unless necessary.</p> <p>Annual (Earth) Sha Day:</p> <p>they bear isolation, immobility, stillness, blockages, delays, lack of development, procrastinating, wrong start.</p>
<p style="text-align: center; font-size: 2em; color: orange; letter-spacing: 0.5em;">R C E</p>	<p>Monthly Three Killings Days</p> <p>Their influence is similar to the Yearly Three Killings days. Avoid these days, especially for short term activities. You can use these days for long term activities (more than 6 months), if necessary. They are carried by day earthly branch.</p> <p>They are named:</p> <p>Robbery Sha,</p> <p>Calamity Sha,</p> <p>Monthly (Earth) Sha.</p>
<p style="text-align: center;"></p>	<p>Weak Energy Days</p> <p>For various reasons, these days are very weak. Try the best to avoid them.</p>
<p style="text-align: center;"></p>	<p>Dead Days</p> <p>This is the wrong day in the wrong season. They are usually weak and ineffective. Better avoiding it unless you know the exceptions.</p>

	<p>Strong Days</p> <p>Such a day has a strong effect, for the good or the bad. It has a strong root in the earthly branches. The influence is stronger, more effective, and quicker.</p>
	<p>Very Strong Days</p> <p>Such a day has a very strong effect, for the good or the bad. It has a strong root in the earthly branches, and it gets the combined help from the month pillar or the year pillar. The influence is much stronger, more effective, and quicker. They are rarer than the Strong Days.</p>
	<p>Extremely Strong Days</p> <p>Such a day has an extremely strong effect, for the good or the bad. It has a strong root in the earthly branches, and it gets the combined help from the month pillar and the year pillar. The influence is much stronger, more effective, and quicker. They are extremely rare too.</p>
	<p>Heavenly Support Days</p> <p>These days harmoniously get the support from other heavenly stems. Everything is flowing smoothly and fast.</p>
	<p>Heavenly Clash Days</p> <p>These days clash with other heavenly stems inside the date. There could be blockages, difficulties, delays, glitches, contrast. Avoid this day if possible.</p>
	<p>Heaven Blessing Star</p> <p>This is a very good star giving help and protection. Even stronger than the Moon Blessing Star.</p>
	<p>Moon Blessing Star</p> <p>This still is a very good star giving help and protection, although weaker than the Heaven Blessing Star.</p>
	<p>Heavenly Happiness Star</p> <p>This star favours social connection and good feelings. It is good for marriage, family events, sharing.</p>

	<p>Year Empty Star</p> <p>This star is giving a mysterious effect. It can trigger the appearance of something, without that being really there, without real substance. It is called 'Void Star' as the appearance is empty inside, it is just a mirage. This star can also make something 'blow up' for a very short time.</p> <p>As such, it is considered mostly unfavourable, but it is not always the case. For instance, this star mixed with personal Peach Blossom and Academic Stars is good for openings, presentations, publications, and generally for all activities that need a lot of showing, fast success, and fast spreading.</p> <p>If mixed with the Travelling Horse Star, its effect is magnified: be careful!</p> <p>In 2024 Wood Dragon year, this star is carried by the Tiger and the Rabbit. The Tiger carries the Yearly Traveling Horse Star too: be careful!</p>
	<p>Yearly Traveling Horse Star</p> <p>This star is giving the day a 'rush and run' taste. It can help moving things forward, giving them a kick. It can also multiply the day pillar influence.</p> <p>If accompanied by good stars, it will enhance their effect. If accompanied by bad stars, it will make the situation worst, so be careful! If mixed with the Year Empty Star, its effect is magnified: be careful!</p> <p>In 2024 Wood Dragon year, this star is carried by the Tiger, which is also carrying the Year Empty Star. This can multiply the effect but can also mean 'doing a lot of work for nothing' or 'showing a lot of activity whilst it's not true'. Use it wisely.</p>
	<p>Yearly Storage Star</p> <p>This star is particularly good for incomes, earnings, gains, profits, buying and selling goods, prizes, asset acquisition, money deposit and accumulation. Its effect is long lasting.</p>

	<p>Monthly Storage Star</p> <p>This star is particularly good for incomes, earnings, gains, profits, buying and selling goods, prizes, asset acquisition, money deposit and accumulation. Its effect is short lasting. It is considered weaker than the Yearly Storage Star.</p>
	<p>Prosperity Star</p> <p>This star brings multiplication, replication, enhancement. It magnifies everything and brings things to full development. Therefore, it is indirectly connected to earnings and wealth. It can be used when you want to multiply your clients, incomes, sales, etc.</p>
	<p>No Wealth / Big Disaster Days</p> <p>Try to avoid these days, especially for activities concerning money or value: buying, selling, trading, rewards, important agreements, acquiring assets or goods.</p>
